TECHNICAL SKILLS

Development: C#, .NET, .NET Framework, ASP.NET Core, WPF, XAML, REST APIs **Data:** SQL Server, Entity Framework, EF Core, LINQ **Tools:** Git, Postman, Docker, Jenkins, AWS EC2/ECR **Delivery:** Agile, Scrum, Jira, Trello, requirements gathering, stakeholder management

EXPERIENCE

MicroKosm

Technical Product Manager

Jan 2024 - Jul 2025

- Led technical delivery and modernisation of a multi-company ERP supporting approximately 200-250 users across nine businesses.
- Translated business requirements into development priorities, technical specifications and release plans.
- Coordinated development, production issues and stakeholder feedback across C#, .NET, SQL Server, ASP.NET Core and Angular systems.
- Mentored five graduate developers during the ERP web migration.

Senior Software Engineer

Aug 2021 - Dec 2023

- Built and maintained a business-critical ERP using C#, .NET Framework, WPF, Entity Framework and SQL Server.
- Developed finance, inventory, procurement and operational workflows used across multiple companies.
- Investigated and resolved application, database, performance and data-integrity issues in production.
- Built Outlook integration supporting 5,000+ items and implemented session security across 100+ application windows.
- Supported releases, users and junior developers throughout the software lifecycle.

Software Engineer

Sep 2019 - Jul 2021

- Developed C#/.NET ERP features, business logic and SQL-backed workflows.
- Diagnosed application defects and data issues and supported testing and deployments.
- Worked with business teams to turn operational requirements into reliable software features.

EDUCATION

MSc Software Engineering - The University of Bolton, 2026

BS Computer Science - Capital University of Science and Technology, 2019
